Full Stack Developer with 3+ years of experience in JavaScript. Thrives on challenges, actively seeking opportunities to innovate in web development. Eager to contribute expertise to dynamic projects and collaborate with fellow professionals.

Experience

Infosys

January 2021 – Present

Technology Analyst

Gurugram, Haryana

- Collaborated within agile teams on various projects, showcasing adaptability to diverse team structures and project dynamics.
- Developed and maintained scalable front-end interfaces utilizing React.js, Redux, and Flux architecture, with a focus on user-centric design and functionality.
- Leveraged Node.js and Express.js to build robust and scalable APIs, enhancing data processing efficiency and system performance.
- Executed end-to-end development, ensuring timely delivery of high-quality solutions.
- Demonstrated a commitment to continuous learning, acquiring proficiency in full-stack development with a focus on React.js, Node.js, and MongoDB.
- Recognized for consistently delivering high-quality solutions, contributing to the success of the team and the organization.

InternNexus

May 2020 – December 2020

Full Stack Development Intern

New Delhi, Delhi

- Orchestrated the development of Single Page Applications utilizing Angular, delivering seamless and dynamic user interfaces for diverse projects.
- Spearheaded the creation of backend functionalities with Node.js, ensuring robust and efficient project implementations.

Projects

Top Learners | InternNexus Node.js, Express, Express.js, MongoDB

November 2021

- Contributed to the development of a platform connecting tutors and students, focusing on optimizing the learning experience.
- Implemented routing and validations using Angular for seamless navigation and data integrity.
- Integrated MongoDB to store and manage user data efficiently.
- Designed and developed the backend logic of the application using Node.js and Express.js, ensuring robust functionality.
- Implemented CRUD operations to manage user data effectively.
- Implemented middleware for Authorization using JSON Web Tokens (JWT) to enhance security and user authentication.

Portfolio | Portfolio React.js

January 2024

- Developed and deployed a personal project portfolio website using React.js on Firebase.
- Created a modern and responsive user interface for easy navigation.
- Ensured cross-platform compatibility and optimal performance through extensive testing.
- Utilized GitHub for version control and project management.

Ecommerce API | GitHub Node.js, Express.js, MongoDB

December 2023

- Designed and implemented a RESTful API for an e-commerce platform to manage product inventory using Node.js and MongoDB. The API allows adding, listing, updating quantities, and deleting products.
- Implemented a well-organized folder structure for models, controllers, and routes, ensuring maintainability and scalability.
- Utilized MongoDB for database storage, incorporating Mongoose for seamless data interaction.
- Conducted thorough testing using Postman to validate API functionality and ensure robustness.

Education

Guru Gobind Singh Indraprastha University (CGPA: 7.4/10)

Aug. 2016 – May 2020

Bachelor of Engineering in Computer Science

New Delhi, Delhi

Technical Skills

Languages: HTML/CSS, JavaScript, C++, Java
Databases: MongoDB, Firestore
Developer Tools: VS Code, Postman, GitHub, Git (Version Control)
Libraries/Frameworks: React.js, Redux, Node.js, Express
Additional Skills: DSA, OOPS, Agile
